

Module Title: Software Development  
Module Code: CST4010 Module  
Leader: Dr. Carl Evans

## Software Guide

### Group B

Game Name: Snail Space

Team Members' Name	Student ID
Abbas, Adil	M00694171
Ahmaditeshnizi, Elaheh	M00835624
Alinezhadtilaki, Nina	M00961599
Bahmani, Morvarid	M00929274

# **Software Guide for Snail space**

## **Operating System:**

Microsoft Windows 10 or above.

## **Web Browsers:**

Latest versions of Google Chrome, Mozilla Firefox, Microsoft Edge, or other modern browsers with JavaScript enabled.

## **Prerequisites:**

No additional software or dependencies are required beyond the specified operating system and web browser.

## **Unzipping the Application**

- Locate "**snailspace\_game.zip**" file in your file explorer.
- Right-click on the file and select "**Extract All**" to unzip the contents.
- Follow the on-screen instructions to complete the extraction process.

## **Build Instructions:**

As the application is web-based and written in JavaScript using jQuery and Bootstrap, there's no traditional build step required.

## **Runtime Instructions:**

- Open the application by double-clicking the "**index.html**" file or right click to open the file with any browser.
- For the best experience, use the application in **desktop view** on your web browser.

## **Troubleshooting Tips:**

- If the application fails to launch, ensure that JavaScript is enabled in the web browser settings.
- Check for any browser extensions or plugins that may interfere with the application's functionality and disable them if necessary.
